MEMORANDUM FOR: Talent Control Officer
Office of Research and Reports

25X1A ATTENTION : OMR/I/CM
SUBJECT : Search of Photographs by Mission 8005
REFERENCE : Requirement No. FR/E/R56/5
PIC Project No. JP 50 - 5

EGIB

4-0 15

a. Assamtion and u/i depot 53-11N 48-7 E. The depots in or near Syzran are generally the same as reported on ADP charts. Some new facilities have been constructed in the city but no association with missile activity was determined. The Syzran Area was covered by mid-oblique photography.

b. U/i depot 52-02E 48-49E. No missile activity was determined. This general location is covered by far oblique photography.

c. U/i depot 52-58N 49-41E. The depots in this area appear to be associated with industrial activity in Chapayevsk. No missile activity was ascertained. Chapayevsk and the surrounding area is covered by mid and far oblique photography.

d. U/i depot 53-25N 49-52E. No installation which appears associated with missile activity was identified at this location.

e. U/i depot 53-14N 50-41E. The depots in Kinel were not identified as being associated with missile activity. This area was covered by mid-oblique photography.

f. Kurumoch u/i installation 53-29N 50-02E. Further study of this installation indicates that it is a possible agriculture storage facility. Similar-type facilities have been found at other locations on Mission 8005.

MAC 236

- a. Comco station 48-00N 53-25E not covered by photography.
- b. Impact Area 48-15N 53-45E not covered by photography.

MAC 166

- a. U/I depot 52-08N 47-09E. This is the location of the Volsk CW Proving Ground. No depot facility in this vicinity could be identified as being related to missile activity.

MAC 337

- a. U/I depot 39-40N 64-35E. Cloud cover precludes interpretation in this area.
- b. Possible missile site 39-46N 64-40E. Cloud cover precludes interpretation in this area.
- c. U/I depot 39-40N 66-56E. No missile activity was identified. This area is covered by far oblique photography which precludes detailed interpretation.

MAC 235

- a. U/I depot 48-31N 44-29E. There are numerous depots in and around Saxepts; however, none of these facilities could be identified as being related to missile activity. This area is covered by mid oblique photography.
- b. Missile activity 50-09N 45-12E. No missile activity was identified. Source reports may refer to an unidentified airfield north of Petrov, not known before this mission.
- c. GM training area 50-03N 46-55E. Photography of area east of the Volga River, from 25 nm north to 25 nm south of Kamyshin was studied and no missile activity was determined.
- d. Engel Car Building Plant (22) 51-30N 46-05E. No positive evidence of missile support production could be found. Production of trolley buses, as reported in AMP, was confirmed.
- e. Possible missile site 51-19N 51-24E. Uralsk and surrounding area was studied and no positive evidence missile activity was identified.
